Genesis 2000 Annual User Group Meeting

Dear Users,

Please join us for this year's fact-filled meeting, and get the latest info on CAM & Engineering innovations that are sure to help you meet the increasing demands on your pre-production CAM and engineering departments. Hear first-hand professional updates, attend technical sessions with application experts, and participate in open discussions with other Frontline users.

Integrated Engineering.
What you want the front end to be.

Morning Session 9:30 a.m. - 12:30 p.m.
Frontline Roadmap

A look inside our R&D plans, and an overview on the latest features included in Genesis 2000.

- Genesis 2000 version 9.0 New Release – an in-depth overview
- Frontline Roadmap – a look inside our R & D plans for the future – a direct report from the Frontline team
- Automation – Improving your pre-production process while reducing cycle time
- Top Performance – Maximizing performance from Genesis – review of the best-practice system configurations

Lunch Buffet 12:30 p.m. - 13:30 p.m.

Afternoon Session 14:00 p.m. - 17:00 p.m.
Products & market updates, and an open discussion

- **GenFlex** – New product presentation
- **Valor** – Market update from Valor on ODB++ in design and assembly markets
- **Round table discussions** – discuss customer requirements: participate in open discussions, including the topic "If I were Frontline's CEO"...
